**THE LETTERS OF GRATITUDE DULY PRESENTED BY THE NATIONAL  
ASSEMBLY MEMBERS TO HIS MAJESTY THE KING JIGME DORJI  
WANGCHUCK DURING 36TH SESSION**

We, the members of the National Assembly of Bhutan, are truly grateful and proud that our beloved country has been able to enjoy an uninterrupted stretch of independence under the glorious rule of the hereditary monarchs. Fortune smiled on us when, during the 15th Rabjung, corresponding to the Water Dragon Year (1952), Your Majesty was enthroned as the third hereditary King of our kingdom. Ever since then, under Your Majesty's dynamic leadership, the country has taken rapid strides towards modernization without being guilty of neglecting the traditions and laws adopted by Your illustrious forefathers.

We, the members of the Assembly are immensely impressed by the nation's dramatic achievements under Your Majesty's wise and benevolent rule: the establishment of the National Assembly a year after the coronation, increasing the strength of the Central Monk Body to 1100 monks, the establishment of new Rabdeys in certain Dzongkhags, the reduction of taxes for the welfare of the people, the erection of 10,000 golden statues, and the writing of over three hundred volumes Kanjur and Tenjur in golden letters. Bhutan, once unknown to the outside world, became a member of the Colombo Plan, the Universal Postal Union and the U.N.O., thus making its name known Internationally and re-affirming its sovereign, independent status. Another notable feat in the realm of Foreign Affairs was Bhutan's prompt recognition of the independence of the neighbouring country of Bangladesh, in the process becoming only the second nation to do so. The strengthening of Indo-Bhutan friendship and establishment of bilateral relationship with rest of the countries in the world.

It may be truly said that though Bhutan is a small country, it has surpassed even the advanced countries by the rectitude of its noble policies.

In brief, the most noteworthy features of Your Majesty's memorable reign of 21 years may be said to be the extension of foreign relations, the maintenance of law and order, and the socio-economic development of the country even empowering the National Assembly of Bhutan to

vote against the unfaithful Ruler for solving political crisis if it arises in future. For all these we, the members of the Assembly, on behalf of the people we represent our offering with sincerest felicitations and gratitude and also pray for Your Majesty's longevity and the prosperity.

Thanking you,

Yours Majesty's Most  
Loyal Subjects  
Assembly Members

**HIS LATE MAJESTY KING JIGME DORJI WANGCHUCK'S REPLY TO THE  
SUBMISSION OF GRATITUDE PRESENTED BY THE NATIONAL ASSEMBLY OF  
BHUTAN ON 29TH MAY, 1972.**

Although I feel quite unworthy of receiving the many wonderful gifts you have so generously given to me, yet my heart fills with gratitude to the Monk Body, the government and the public for this profoundly affectionate gesture. For my part, besides simply occupying the throne, I am not conscious of having led the country forward or having contributed greatly towards the welfare of its people.

Generally speaking, the success of the kingdom in its present tasks can be attributed to the compension of the Lord Buddha, the Dharma, and the Sangha. More particularly, though, my success has arisen from the advice given by you, the members of this Assembly, in addition to which I have always been able to consult the Royal Advisory Council. Furthermore, the officials of the government have been able to unite harmoniously in the discharge of their responsibilities. Apart from this, being uneducated myself, I could not have been able to overcome the success for the interest of the country.

I feel a deep sense of gratitude to you, the people of the country, for the great loyalty you have shown me over a period of many years during my resign. This devotion you have shown is most precious because it is quite beyond price and, for that reason, it would be extremely difficult to repay.

Speaking for myself, the fact that I have been able to enjoy my life as I have done is entirely due to the loving kindness of the kingdom, its people and all of you. It is not therefore, in the

least bit necessary for you to make further gifts to me in this way. I, more than anyone, am conscious of the fact that at present our revenues are not sufficient to meet the government's expenditure, and I would be very grateful if you allow me to return these gifts to the government. The expression of your affection for me alone is more than enough and for that, I thank you from the bottom of my heart.

I would also like to say that I myself, because of my lack of good fortune, have been unable to serve my country as well as I would have liked; and even in my dream I pray that my children, who are now growing up, will serve their country steadfastly and would fulfil my great hope in achieving the National goal.
